THE CITY BAKERY

While others are talking and writing about politics and war, and how heroes have died and a nation's hopes have been crushed in the din of battle, we are writing about our home city, its buildings, its comforts and its nourishments. For we are persuaded that only such Christ will bless with immortality when sin is wiped off the earth, and he comes to reign as King.

In the bible, man is promised bread—only bread—thus making bread the stuff of life. Not only does bread sustain life here, but it is an emblem of the bread that gives eternal life. Hence, the hands that knead the bread as well as the ovens that bake it, are co-workers with God in carrying out His promise that His children shall not beg bread. So, in our humble judgment, the president in the white house, or the governor in his mansion, fills no higher trust in this life, than the most humble hand that prepares the bread that sustains this life.

The new building, about completed for the City Steam Bakery, is one of the best and neatest in the city. It is located on Ninth avenue, and is a two story brick structure, with large basement. The building is 110 by 23 feet in the clear. It was designed and built by, and is owned by the Elliott Building Co. That company does nothing by halves. Their buildings will be in style and in keeping when the city grows to 50,000.

The basement of this building will be used for heating, storage and preserving purposes. The first floor will have a glass front and beautiful show windows. The front room for 20 feet will be a store room, for selling cold drinks, ice cream, candies, fruits, bread, pies, nuts, tobacco, cigars. Back of this will be a room used for office, wrapping and packing. Back of this is the oven, the standard, modern in every particular, and will bake 6,000 loaves of bread in twelve hours. The oven cost \$1,500.

The front of the second story is divided into two office rooms for rent. Beautiful rooms. In rear of this, are toilet, and bath rooms. Back of that will be used for storage room when needed. Everything will be sanitary and flyless. Mr. C. W. El-

lington will move his bakery into it, enlarge the outfit, and be general manager, which means success. Everybody will be proud of it, especially the good housewives. J. F. C.

REPORTED VICTORY OF

VILLA IS CONFIRMED

El Paso, Texas, Oct. 25.—Government agents here claim to have received additional confirmation of Villa's reported defeat of Gen. Carlos Ojuna's column at Palomas, west of Chihuahua City last Friday. The confirmation is said to have come from refugees reaching the border from Chihuahua City, who claim that Villa captured General Azuma's 11 troop wagons carrying ammunition and supplies.

The refugees claim to have talked with survivors of Ojuna's column who said Villa led the Carranza troops into a trap at Palomas then attacked them at the front, flank and rear and cut the railroad line behind the trains. The same source claims 250 Carranza soldiers were killed and an equal number taken prisoner.

The refugees claim to have seen Villa's campfire six miles west of Chihuahua City Sunday night.

It is stated that Villa had received a large amount of arms and ammunition stolen from the government arsenals by agents serving the Carranza army.

STATE ORGANIZER KNIGHTS

OF PYTHIAS VISITS HICKORY
Mr. H. M. Roberts of Fletcher, state organizer for the Knights of Pythias, spent Tuesday night and part of today in Hickory with his sister, Mrs. P. A. Sigmon. The Knights of Pythias, for many years one of the strongest fraternities in the state, have decided on a campaign not so much for new members as for rejuvenating many lodges in all sections of the state, and Mr. Roberts has been chosen for the task. He has met with hearty encouragement and Pythians here will be glad to learn that the prospects for greater and more active lodges everywhere are unusually bright. Hickory has a large number of Knights.

SATISFACTORY BASIS OF GRADING MILK

(By Associated Press)
Cincinnati, O., Oct. 25.—Bacteriological analysis was defended as the only satisfactory basis for the grading of milk, in an address before the Laboratory Section of the American Public Health Association today by H. V. Conn, director of the laboratories of the Connecticut state board of health. Mr. Conn took up the various objections made by laboratory men, purchasers and dealers and gave an answer to each one by quoting the results of an extensive investigation of the subject which he had made in Connecticut.

"For a long time the dairy industry has strongly insisted upon the retaining of one price of milk by every possible means," said Mr. Conn, summarizing the points he had made. "This they have done, doubtless to protect the better dealers from the cutthroat prices of those who are willing to produce milk cheaply and carelessly. Unfortunately the result has been to bring all of the higher grades of milk down almost to the level of the lower. In no other industry can it be said that the poorer grades bring the same price as the higher grades. Under these conditions there is not any stimulus to produce a higher grade of milk. The better class of dairymen receive no incentive to produce a better grade, since they can get no better price than their slovenly competitor."

The only remedy will come when milk can be sold upon its value. The difficulty, however, has been in devising any method by which milk can be graded so that the public can rely upon getting what it pays for. The experience of the past two years has shown emphatically that even in a large city like New York the public is not only willing to pay extra for a good supply of milk, but that it will produce and properly guaranteed. The dealer is willing to pay the producer a little extra for furnishing the milk and the producer is willing to take the extra care if he can get the proper pay for it. The grading system of milk offers a way out of the present cutthroat system by which the industry has been organized.

"When the time comes that I can go into a market and buy a bottle of milk with a certain label on it that guarantees that the milk has been produced under conditions that are cleanly and safe and that the milk is fresh, I shall be willing to pay an extra price for such milk. Experience in New York in the last two years has shown that this is absolutely true."

WILLCOX AND HUGHES REFUTE SECRET PACT

New York, Oct. 25.—Charles E. Hughes, Republican candidate for president, denied the charges of the Democratic national committee, that he had entered into a secret agreement with the American independent conference in which Jeremiah A. O'Leary is said to be the central figure.

His denial was in reply to a statement issued from Democratic headquarters in this city containing what purported to be a report made by Mr. O'Leary at the session of the conference in Chicago as to what occurred at a meeting between Mr. Hughes and a committee from the conference headed by O'Leary. In this alleged report O'Leary was quoted as having said:

"Mr. Hughes promised that his future conduct in the speech-making line should be entirely satisfactory to the interests of the committee."

The Democratic statement charged that O'Leary and his committee were delegated to meet Mr. Hughes and ascertain his attitude with reference to "Mr. Roosevelt's pro-British and anti-American utterances in general and his (Mr. Hughes's) policies in general."

The Republican reply was issued at Montclair at midnight. Chairman Willcox called early in the evening and while in conference with Mr. Hughes the Democratic statement was read to them over the telephone. The reply was drafted after the chairman and nominee had conferred at length.

WITNESS REGRETS NOT KILLING CATHOLICS

(By Associated Press)
Galveston, Oct. 25.—Clarence F. Hall, who was William Black's business agent up to the day the anti-Catholic lecturer was killed in Marshall, Tex., was the first witness summoned when court convened today in the case of John Copeland, charged with killing Black. Just before court adjourned, Hall testified calmly that his only regret was that he had not killed the entire party that waited on Black.

Attorney Stubbs questioned the correctness of a circular distributed in Marshall in advance of Black's lecture stating that Black was an ex-priest.

"Do you know that Black was an ex-priest?"

"No," replied Hall.

"Do you know that this is not true?"

"I do not," testified Hall. The witness said Black seemed to be a Mason and wore a Masonic emblem. The witness said Black had told him he was a minister and believed he was connected with the Methodist church.

ONLY THREE THOUSAND AMERICANS IN MEXICO
(By Associated Press.)
Laredo, Tex., Oct. 25.—Farely three thousand Americans remain in the republic of Mexico as compared with the 100,000 or more who lived in that country prior to the Madero revolution in 1911. These figures were recently compiled here by an American who concluded a ten week's tour of the republic at this border point. His estimate and distribution of the American citizens below the border is:

Mexico City, approximately 300 Americans.

Tampico, approximately 900.

Panuco oil field district, near Tampico, 200.

Don't Miss Seeing The DISPLAY of Fine Pianos

on exhibition during Fair week, at display room at Hardin's Studio.

C. M. Hardin,
1348 Union Square, 2nd Floor.

Scattered throughout the Sonora state, 350.

Scattered through Chihuahua state, 250.

State of Nuevo Leon, including Monterey, 100.

Guanajuato, 15.

State of Puebla, 60.

Vera Cruz 50.

San Luis Potosi, 12.

Queretaro and Guanajuato, 20.

Torreón, 30.

Isthmus of Tehuantepec, 25.

Five hundred additional Americans he said, are scattered through various other states and cities mostly at points remote from railroads, where they are engaged in ranching or mining.

RESPONSE

Oh, the world will be smiling instead of frowny.

If, in passing on your way, You hold yourself to a gentle mood

And toss it a big bouquet, The words may seem prosy,

But the sentiment goes; The world will seem rosy

If you hand it a rose.

Oh, the world will seem cruel and all unjust

If the rose's grace you hide

And wield the briar with reckless thrust

Just as sore as you're born!

It will prick you again

If you hand it a thorn.
